Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 3	Ordered	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 4

Date: 2026-05-13
Facility: Community Imaging Center
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are worse at night. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 4	Completed	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 5

Date: 2026-06-16
Facility: Downtown Specialty Group
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are worse at night. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 5	Ordered	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 6

Date: 2026-01-19
Facility: Community Imaging Center
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are stable. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 6	Completed	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 7

Date: 2026-02-22
Facility: Riverbend Hospital
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are stable. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 7	Ordered	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 8

Date: 2026-03-25
Facility: Downtown Specialty Group
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are intermittent. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 8	Completed	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 9

Date: 2026-04-01
Facility: North Valley Clinic
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are worse at night. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 9	Ordered	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 10

Date: 2026-05-04
Facility: North Valley Clinic
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are stable. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 10	Completed	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 11

Date: 2026-06-07
Facility: Downtown Specialty Group
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are intermittent. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 11	Ordered	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks

ENCOUNTER NOTE 12

Date: 2026-01-10
Facility: Riverbend Hospital
Chief Complaint: Follow-up and review of active problems.
Subjective: Patient reports symptoms are stable. No acute distress noted during visit.
Objective: Vitals reviewed. Medication reconciliation attempted. Some external records unavailable at time of visit.
Assessment: Chronic conditions reviewed; no immediate emergency findings.
Plan: Continue current care plan, repeat labs as indicated, update medication list at next visit, and forward records to primary care.

Order	Status	Notes
Lab panel 12	Completed	External lab may use different reference ranges
Medication reconciliation	Partial	Patient did not bring all bottles
Follow-up	Scheduled	Return in 4-12 weeks
